AUTHOR INDEX FOR VOLUME 52 (1999)

References to AMR (at the end of each entry) are coded in the form nLm, where n is an integer which gives the AMR issue number (1 for Jan, 2 for Feb, etc), L is a letter (R, N, A, or T), and m is the sequence number of the item within the issue. If L = R or N, the item is in the BOOK REVIEWS section with R indicating a signed Review and N a staff-prepared Note. If L = A or T, the item is in the REVIEW OF THE JOURNAL LITERATURE section with A indicating that an abstract is given and T that only the title of the article is given. Under each author's name the entries are listed alphabetically by title.
